

John G. Johnsen

## REGISTRERTE VAREMERKER 1892 - 1981

Registeret er utarbeidet på grunnlag av Norsk Registrerings-Tidende for Varemerker, klasse 23 - Hermetikk. Innholdet i denne klassen spenner imidlertid vidt, fra generelle varemerker til mer spesielle for ananas, kondensert melk, kjøtt osv. Det som er relevant i denne sammenheng er imidlertid varemerkene for fisk, med særlig vekt på "sardinhermetikk". Det har derfor blir foretatt en utsiling, slik at registeret i hovedsak bare inneholder varemerker som har blitt brukt for fiskehermetikk. I de tilfeller hvor det har vært tvil om vareslaget, har varemerket blitt tatt med.

I tillegg til Norsk Registrerings-Tidende for Varemerker er det benyttet tre publiserte lister med register over varemerker for hermetikkbransjen. Dette gjelder følgende publikasjoner:

- 1) Tidsskrift for Hermetikkindustri, **Registrerte Varemerker, klasse 23 - Hermetikk, 1892 - 1926**. Stavanger 1927
- 2) Gustav Iversen, **Registrerte Varemerker, klasse 23 - Hermetikk, revidert utgave**. Stavanger 1936.
- 3) Det sentrale varemerkeregister, **Fortegnelse over registrerte varemerker pr. 31.12 1965**

I tillegg til varemerkets registreringsnummer i Varemerkeregisteret, har alle varemerker fått et arkivnummer. Disse er ordnet kronologisk. En del varemerker har blitt registrert flere ganger. Dette kan skyldes at de har blitt registrert med og uten illustrasjon, eller ved endring av eier. Spesielt i forbindelse med de 10-årige fornyelsene ser en også eksempler på at varemerket har blitt registrert på ny, og ikke bare fornyet med sitt gamle nummer. Før 1917 har normalt bare første registrering av et varemerke blitt tatt med, etter dette tidspunktet har alle nyregistrering blitt tatt med. Bakgrunnen for dette er for å kunne gi hjelp til å skille mellom det mangfold av varianter som gjennom årene har blitt skapt. I etikettregisteret kan dette noen steder ha ført til at samme etikett er tatt med to ganger.

Før 1911 foregikk det en fortløpende nummerering av alle innmeldte varemerker for hvert enkelt år. Denne praksis ble endret i 1911. Fra det året gikk en over til en løpende nummerering uten å nullstille for hvert år. Ordningen med samlet nummerering for alle klasser ble imidlertid beholdt.

Det kan være flere måneders tidsforskjell fra et varemerke blir "Indgit" til Styret for det industrielle retsvern til det blir formelt registrert og får sitt nummer i varemerkeregisteret. Denne tidsforskjellen er en medvirkende årsak til at registreringsåret kan variere i de ulike publiserte listene. I denne oversikten er registreringstidspunktet brukt som grunnlag for tidfestingen.

## SORTERT KRONOLOGISK

Figurmerker er merket med \* foran beskrivelsen av varemerket. Varemerker som omfatter både navn og en illustrasjon er merket med \* etter varemerkets navn.

Varemerke	Reg.år	Eier av varemerke	Adresse	Reg.nr.	Arkivnr.
